Caution!

Do not put off until tomorrow that order which should be placed today. Too often, customers are badly disappointed by waiting until certain varieties are sold out—thus receiving only a partially filled order.

To insure good service on Rooted Cuttings, it is very necessary to place your order in advance. This, again, often saves the disappointment of a half-filled order.

Chrysanthemum orders should be booked at once upon receipt of this price list. Do not wait until the rush of late spring comes on. Make your reservations now.
